The framework has been let through an EU compliant process, thus the institutions can benefit from substantially reduced timescales and a less burdensome administration process. Using approved UKUPC Benefits reporting methodologies, agreement users may benefit from: • cash savings of 33% on products via lot 1, and • cash savings of 7% for project installations via Lot 2 The framework has been devised by UKUPC and CPC consortia for use by UKUPC and CPC consortia members, assuring that the framework is fit for purpose. All services are available on a UK wide basis. The framework has been extended to 31st May 2019.

SCOPE

This UK-wide agreement includes the supply of health and safety signage, way-finding consultancy, design services, manufacture, supply and the installation of bespoke and customised signs and signage. Excluded from scope is the provision of digital signage (available through Audio Visual frameworks), on-line signage and mobile devices connectivity. ☒ Lot1: A single supplier providing a catalogue of standard health and safety signs on a next day delivery basis. ☒ Lot2: A one-stop shop organised regionally to provide either three or four suppliers offering an all-inclusive solution to complete in-scope requirements.

AGREEMENT BENEFITS

Higher education (HE) institutions designed this framework to meet your needs. You can benefit from substantially reduced timescales and a less burdensome administration process when awarding contracts. This is because the framework has been let using an EU compliant process which minimises your risk of litigation under EU law. There are significant potential cash savings. Approved UKUPC Benefits reporting methodologies demonstrate that agreement users may benefit from: ☒ cash savings of 33% on products via lot 1 ☒ cash savings of 7% for project installations via Lot 2. Lot 1 is especially suited to e-procurement, which can bring significant additional efficiency savings. All Lot 2 suppliers have been assessed for competence in: ☒ working with asbestos ☒ working at height ☒ ground-works safety.

USING THE FRAMEWORK

Suppliers have not been ranked and are awarded equal status. Lot 1 is supply only and you need to use direct award. For lot 2, you will predominantly undertake a further competition on project by project, or on a term basis.

SUPPLIERS

Lot	Suppliers
Signs & Signage EFM2006 NE - One Stop Shop	DMA Signs Ltd, GB Sign Solutions Limited, Sign Plus Ltd., Wood & Wood Signs Ltd,

SUSTAINABILITY

We asked suppliers how they minimise operational impact on the environment as part of the selection criteria. We also evaluated how suppliers are trying to improve the amount of recycled material used in product and packaging. The framework award includes an environmental criterion worth 5 per cent of the overall evaluation. This allows you to focus upon the sustainability issues specific to the needs of your contract under Lot 2. If you would like details of the questions and subsequent answers of each of the bidders, contact SUSTAINABILITY the Procurement Manager m.r.hayter@leeds.ac.uk

NEXT STEPS

To use this framework visit the agreement page on the uniBuy contracts database at: <http://purchasing.uk-plc.net/buyerdotnet2/ContractAccess/Agreement.aspx?AgreementId=1975> From there, you can view the agreements, suppliers, supplier contact details, terms and conditions and a complete Buyers Guide. If you need assistance, please contact the person with responsibility for procurement at your institution, or contact NEUPC Procurement Manager Mark Hayter at m.r.hayter@leeds.ac.uk Last updated: May 2015
