Estates Maintenance and Minor Works (EFM5029 LU)

SUMMARY

Start date: 14th September, 2015
End date: 13th September, 2021
OJEU Number: 2015/S 037-063427
Lead Consortium: LUPC
Main contact: Julie Gooch
j.gooch@lupc.ac.uk
Website: https://www.hecontracts.co.uk/agreements/137

NOTE: SHAYLOR GROUP PLC HAS GONE INTO ADMINISTRATION
Therefore, they should not be contacted in regards to this Framework under any circumstances.

SCOPE

This agreement is made up of six lots, with the choice of either engaging a single firm to provide a full estates maintenance service, or engaging firms for specific maintenance areas such as M&E Maintenance and Water Management Services. New to this framework is the addition of Minor Works, with the option of having works carried out by your estates maintenance provider appointed through the framework, or under a standalone lot for identified projects.

AGREEMENT BENEFITS

An OJEU-compliant route through which Members can purchase a range of estates maintenance services and minor works.

- A framework designed with Members specifically in mind, with input from a Project Board and Project Team made up of procurement and estates representatives from across the higher education and cultural sectors.
- Competitive pricing, with elements fixed at framework level and a range of added benefits, including volume and efficiency discounts. Suppliers also have the opportunity to win business and improve their pricing at mini-competition stage, and will therefore be incentivised to offer competitive quotations.
- A mix of larger national/multi-national firms and local small and medium-size enterprises (SMEs), with proven experience of delivering these services to higher education, further education, research and cultural sectors, as well as the wider public sector and private sector.
- Guidance and templates on how to use the NEC3 contracts with this framework.
- Assistance with running a mini-competition under this framework, or with drawing up the contract documentation (competitive charges apply).
USING THE FRAMEWORK

There are between one and five suppliers in each of the framework lots. For the lots with only one supplier, Members should seek a proposal from the supplier which should include both pricing and any information relevant to their institution with regards to service delivery. A contract to the supplier can then be awarded directly on the basis that you are happy to accept the supplier’s proposal.

For the lots with multiple suppliers, Members will undertake mini-competitions to choose the supplier(s) with whom they will enter into a contract.
