For contract-related queries, please contact Jisc directly: Alec Wright, Data Centre Service Manager, 07552 364231, Alec.Wright@jisc.ac.uk

Janet(UK) working closely with a set of Anchor Tenants have set up a single Supplier framework agreement for the detailed design, supply, installation, configuration, commissioning and maintenance of a co-location datacentre facility with power, cooling and shared facilities including security.

The framework agreement enables the long-term utilisation of the datacentre environment for a range of activities including:

- High performance computing (HPC) systems with high power requirements but moderate availability requirements
- Administration, teaching and learning systems with moderate power requirements but high availability requirements
- Other research systems that may have a requirement for higher levels of data confidentiality, and to operate in an NHS/Higher Education secure research zone.
