**Website:**  
<https://www.hecontracts.co.uk/agreements/189>

The Network Services agreement has been extended by the maximum two (2) year period, so the expiry date is now midnight on 26th July 2019.

The extension is in place to support the Crown Commercial Service strategy for retention of existing business and maximising the potential of the agreement in line with our forecast growth profile. It will also align the agreement term with both key strategic projects and customers in train procurements, whilst maintaining a regulatory compliant route to market which delivers value for money and access to a range of capable and innovative suppliers. Please review the 'Lot Details' and 'Documents' tab below for up to date information on the individual supplier retention on the framework.
