

Routing & Switching Equipment, Jisc (ITS5032 LU)

SUMMARY

Start date: 1st October, 2015

End date: 30th September, 2019

OJEU Number: 32420000

Lead Consortium: LUPC

Main contact: Mike Kilner
m.kilner@lupc.ac.uk

Website:
<https://www.hecontracts.co.uk/agreements/191>

Agreement Manager's contact details: Cindy Wrapson, 01235 822107, frameworkcontracts@jisc.ac.uk

Please note a copy of all the scores and weightings for each Lot is available on request on the understanding that the information is kept for your own use and not shared; the information is viewed by Jisc as commercial in confidence.

The replacement agreement was re-tendered over the summer (2019) and the standstill period concluded without incident at the start of September. An appropriate communication will be made very shortly for sharing with all HE Consortia members. At time of writing, is on schedule to be ready to commence 1 October 2019.

Communication April 2019: Please be aware that CAE no longer partner with Huawei for end users that are new to CAE. This does not affect any existing contracts in place to provide Huawei support however new end user opportunities for Huawei will be declined unless for example, CAE are already providing a service to a customer requiring equipment or support.

Communication July 2018: Please be aware that on 12 July, administrators PwC were appointed to handle the affairs of Lot 10 supplier Dimension Data. DD have been removed from the agreement information while we await further news from Jisc.

Communication issued September 7th 2016 from Jisc re: Brocade

"Brocade have recently acquired Ruckus Wireless. Ruckus Wireless were not part of the original Jisc framework therefore we have taken the below decision on selling Ruckus Wireless via the framework:

- Ruckus Wireless equipment can be sold via the framework as long as it has been rebranded as Brocade, has a Brocade part number and is part of a Brocade pricelist.
- The supplier is accredited to sell this type of equipment with the vendor."

Jisc statement 14/7/17: Due to the recent acquisition of Brocade by Extreme Networks and re-branding of Brocade products to Ruckus, the Brocade brand will essentially disappear. The manufacturer has made assurances that existing product lines will continue to be supported and developed and the same part codes will continue to be used.

We have therefore taken the decision that Ruckus equipment can be sold via the framework by the accredited suppliers on Lot 2 of the framework – Ampito, Pervasive and Redcentric.

Lot 2 will be referred to as Ruckus.

SCOPE

The framework is a multi-lotted agreement based on a Lot structure that uses the principal Routing and Switching OEMs used within Higher Education.

AGREEMENT BENEFITS

USING THE FRAMEWORK

USING THE FRAMEWORK

SUPPLIERS

Lot	Suppliers
Lot 1 - Aruba	Ampito , KHIPU Networks Ltd, Pervasive Networks Ltd,
