A four month extension to the Nepa framework has now been put in place to cover the interim period while the re-procurement of the next iteration (Nepa 2) takes place, the framework end date is the 31st July 2020. Institutions may wish to use the extended NEPA framework, however, it is recommended that larger projects are procured via the new framework as terms and conditions and the framework itself will be more up-to date.

Average 14% Saving against Market Price

Framework updates of note -

Itec Connect Ltd have replaced Capita as a Kyocera reseller as of 05/07/19 (lot 2)

HP have acquired Apogee. As of 21st December 2018, Apogee will no longer be a Canon reseller under all Lots

Apogee acquired Danwood as of 2nd March 2017. Danwood do not trade.

HP have acquired Samsung, Samsung obligations have Novated to HP.

Samsung branded stock is diminishing, therefore remaining Samsung resellers are removed from the framework from the End of May 2019, current call offs will be supported.

Apogee have been removed as a Kyocera reseller, to be replaced by Softcat as of 01st May 2019.

Apogee replace Softcat as a lot 2 HP reseller

SCOPE

This agreement is intended to provide a full document print equipment supply with related services and peripherals. Included in this remit is office document print hardware, multi-functional devices, print production hardware, print management solutions and services (including software solution if required) and additional peripheral hardware to enable fulfilment of managed print services i.e card readers and coin operators. Large format printers are within scope of this agreement and may be supplied under lots 1-4.

Not included in this framework is any stand alone hardware where the primary function is not print (ie stand alone scanners), 3D printers or separate direct sale of print consumables. Separate Higher Education frameworks are in place for the supply of these items, further information may be obtained through the named Procurement Manager.

AGREEMENT BENEFITS

Full range of print and managed print equipment and services required for the HE environment as given as a priority by the tender working party

- Specialist lot for Print production developed by the sector specialists, with the involvement of the University Print Managers Association
- Access to majority of the key suppliers in the respective markets under one framework
- Market coverage in the supply base allows direct contact with leaders in the various specialist areas, some of which are not available on alternative frameworks
- Commitment from suppliers to support pricing on consumables for purchased equipment
- MI reporting at consortia level will be direct and so within control, improving savings reports for members
- Standard SLA in place for call offs
- Direct control of contract management and reviews at consortia level.

USING THE FRAMEWORK
