SCOPE

Lots 1-1o – Entrance and Access Control Systems - Installation and/or Maintenance Services - including but not limited to the initial supply and installation, management, commissioning, testing, handover and maintenance of new and legacy Entrance and Access Control Systems. This lot also covers additional services associated with system design & consultancy, project management, technical support, providing ongoing advice, through to deployment of the system and ongoing support and guidance to ensure members have the correct Entrance & Access Control solution for their institution. Lot 1 is comprised of 1 national lot and 15 regional lots to ensure full geographic coverage and includes a broad supplier mix to ensure all member requirements can be fully met through the framework. Each lot consists of 5 suppliers.

Lot 2 – Security and Access Control System Equipment and Associated Services - including but not limited to the supply of Entrance and Access Control equipment, hardware, software & consumables. This lot also covers additional services including Bureau Services (Customers of requiring a bureau service typically do not have the scale or expertise to incorporate these services into their internal operations and prefer to outsource them to a service bureau) including but not limited to the identification of types of equipment required, providing ongoing advice, through to deployment of the equipment and ongoing support and guidance to ensure members have the correct equipment solution for their institution). There is a single lot for this provision and is comprised of 5 suppliers.
