Asbestos Consultancy Services EFM2021NE (EFM2021NE)

SUMMARY

Start date: 15th May, 2019
End date: 14th May, 2022
OJEU Number: 2018/S 100-228781
Lead Consortium: NEUPC
Main contact: Andy Hughes
a.hughes@neupc.ac.uk
Website: https://www.hecontracts.co.uk/agreements/734

SCOPE

Asbestos related consultancy, testing and analysis work

AGREEMENT BENEFITS

• Compliance to Health and Safety legislation

• Non-Cash savings: use of framework for a complex procurement. Contract particulars are included in framework specification.

• Cash savings: Analysis of all framework applicants’ proposals clearly demonstrates that higher quality scores result in higher price. Cash savings are difficult to gauge at Framework level, but a 20% saving against the last framework tender is possible, dependent on which supplier is chosen.

The advertised framework saving will be 2%, in keeping with price versus market savings secured in the previous framework.

Institutions may be able to claim cash savings versus unsuccessful bidders at further competition, and there is potentially 40-50% differential depending on lot chosen. Demand management may be able to realise additional savings, as normal working hours are less expensive that out of hours work. Using a permutation of hourly versus day rates may also lead to increased savings. Analysts may be less expensive where 24h hours’ notice of requirement is given.

• Provision to manage sustainable impacts via the Net Positives supplier action tool.

• Awarded to regional and SME

• Flexible call-off options

• Direct control of contract management and reviews at consortia level.

USING THE FRAMEWORK

please refer to buyers’ guide
