| Lot 9   | Radio services  
|         | A voice communication solution utilising UHF, and/or VHF radio frequency bands and associated equipment.  
| Expires: | 16/08/2022 |
SCOPE

Telecommunications services including networks for the entire public sector, their associated bodies and agencies, the voluntary sector and charities.

This agreement offers customers a range of primary and ancillary services* including:

- voice and data provision
- internet access
- WiFi
- radio
- security and surveillance
- audio and video conferencing
- equipment
- maintenance and support services

*Primary services are the main services and function of a particular lot. Ancillary services are any services which support the primary services, such as equipment, maintenance or support services.

You can access specialist suppliers who deliver the services under individual lots, as well as multiple services across a number of lots.

AGREEMENT BENEFITS

- flexible contract lengths – up to 10 years for some services
- supports your organisation’s technology upgrade programme
- savings from lower cost and or more efficient technologies
- option for both direct award or further competition to meet your needs
- option to choose specialist suppliers who can deliver services under one specific lot, as well as suppliers who can provide multiple services across several lots
- uses the agreed Public Sector Contract (PSC) terms and conditions
