The VEAT OJEU notice has been created for the purchase of the Fairphone series including the FP4 and recently launched FP5, which is available to UK Business customers via the named supplier (Your Co-op). The agreement is also available to staff and student purchases. An 8% reduction from the normal business price has been negotiated for all purchases up to 100 units. All delivery is included. For full details, including SIM only and Phone/SIM bundle deals, support information, reviews and similar, please see the Agreement Buyers Guide.

Details on the University offer can be found at the UPC site for the FP4 and FP5 at https://broadband.yourcoop.coop/business-solutions/upc-offer/

SCOPE

The VEAT agreement and therefore this framework, covers the acquisition of the Fairphone handsets only, as there are other options available for airtime deals.

However, there is also an O2 airtime deal available through Your Co-op that you might want to consider, either discreet or bundled. PCR2015 permits the acquisition of additional services, works or goods up to 50% of the original contract value from the existing supplier, where changing suppliers would cause significant inconvenience or substantial duplication of costs. Institutions should therefore consider whether their total non-handset acquisition cost is below this value and satisfies the regulations.

For airtime, both below-threshold and staff and student (i.e. personal – non business) requirements are not affected by this consideration.

AGREEMENT BENEFITS

An 8% reduction from the normal business price has been negotiated for all purchases up to 100 units. All delivery is included.
