AGREEMENT BENEFITS

Direct Price Based Savings

Due to market conditions on price, comparison of price offered versus last price paid may not be reliable, certainly not for a framework benchmarking. At further competition level, depending on contract requirements and timings, some cash savings may be realized. Institutions conducting repeat tenders may be able to report this benefit type

Direct Price Based Savings

The framework agreement used two price comparators, being a basket of goods, and also a design scenario. This enables us to compare the proposed pricing from the awarded suppliers, against that of the unawarded tenderers:

11% Basket of Goods:

41% Design Scenario (Small contracts)

30% Design Scenario (Large Contracts)

Soft benefits include

- Compliance to Health and Safety legislation
- Provision to manage sustainable impacts via the Net Positives supplier action tool.
- Awarded to regional and SME
- Flexible call-off options
- Direct control of contract management and reviews at consortia level.

USING THE FRAMEWORK

The framework offers a flexible approach to calling off contracts, including

- Direct Award
- Competitive Quotation
- Desktop Calculator
- Mini Tender

The suppliers are arranged in regional lots, and also by 'Large' and 'Small' contract size. The customer may use their own discretion to determine the lot and call off method most suited to their own contract requirements.

Please also see the Buyers' Guide Document, which offers additional assistance and reassurance regarding selection of lots and call off methods.

SUSTAINABILITY

All Tenderers were required to prove that they operated an audited Environmental Management System, such as ISO14001 or equivalent.

Awarded suppliers must participate in the 'NETPositive Futures' sustainability assessments and action plans

All awarded suppliers have indicated their adherence to the Ethical Trade Initiative

Customers may be able to overlay Electronics Watch terms and conditions in their call off contracts

Institutions, integrators, manufacturers and distributors are to participate in a bespoke framework sustainability forum, with initial focus upon single use plastics, and improving the sustainable credentials of packaging in the supply chains.

NEXT STEPS

Please see the Buyers' Guide for more details about using this framework agreement.

Your Procurement Department, or the Agreement Manager will be able to assist with your purchasing questions

The Framework is currently in the process of being extended to the end of July 2024.
