**AGREEMENT BENEFITS**
Direct Price Based Savings

Due to market conditions on price, comparison of price offered versus last price paid may not be reliable, certainly not for a framework benchmarking. At further competition level, depending on contract requirements and timings, some cash savings may be realized. Institutions conducting repeat tenders may be able to report this benefit type.

Direct Price Based Savings

The framework agreement used two price comparators, being a basket of goods, and also a design scenario. This enables us to compare the proposed pricing from the awarded suppliers, against that of the unawarded tenderers:

11% Basket of Goods:

41% Design Scenario (Small contracts)

30% Design Scenario (Large Contracts)

Soft benefits include

- Compliance to Health and Safety legislation
- Provision to manage sustainable impacts via the Net Positives supplier action tool.
- Awarded to regional and SME
- Flexible call-off options
- Direct control of contract management and reviews at consortia level.
